

ALL PURPOSE LUBRICANT AND PENETRANT

DESCRIPTION

ALL PURPOSE LUBRICANT AND PENETRANT is an ultra-thin transparent blend of high quality petroleum distillates specifically formulated to ensure maximum moisture displacement. Its film resists the collection of abrasive particles on delicate contacts and connectors. The superior qualities of Jet Lube All Purpose Lubricant and Penetrant form a continuous film that spreads evenly over metal surfaces, giving uniform protection against corrosion attack. This spreadability also makes Jet Lube All Purpose Lubricant and Penetrant an excellent penetrant for freeing corroded parts and mechanisms. Jet Lube All Purpose Lubricant and Penetrant will not affect plastic, rubber, fabrics, or painted surfaces. Dielectric strength 47,000 volts per mil. Contains no silicone. Use in food plant and other industrial settings only. Avoid contamination of food during the use and storage of this product.
