

EP WHITE GREASE

Multipurpose Grease, Construction Grade

DESCRIPTION

JET-LUBE's EP WHITE GREASE provides a tough protective film ensuring superior lubrication and extended lubrication intervals.

EP WHITE GREASE is a shear stable, noncorrosive, extreme pressure, water resistant lubricant for both plain and anti-friction bearings, gears, cams and slides. EP WHITE GREASE is excellent for concrete assembly. The non-staining formula is recommended for expansion joints and construction applications. EP WHITE GREASE is also recommended as a bearing lubricant for electrical motors, spindles and other mechanical devices when low torque, high speeds and long life are essential.

- Off-White Color
- Non-staining
- High Temperature
- Water Resistant
- Anti-Corrosive
- Lubricates
- NLGI Grades Available
- Non-drying

APPLICATIONS

EP WHITE GREASE was specifically designed as one lubricant to take care of wheel bearings, chassis points, ball joints, slides, rollers, small gears, hinges, overhead tracks, construction equipment, mining, logging, marine and a variety of industrial applications. EP WHITE GREASE is an extremely stable, extreme pressure lubricant for a multiple number of uses, thus reducing lubricant inventories by consolidating to one product.

SPECIFICATIONS

Meets or exceeds requirements of U. S. Military specification Mil-G-18458B (SH)

TEMPERATURE RANGE

0°F (-18°C) to 325°F (163°C)

PRODUCT CHARACTERISTICS

Thickener	Lithium
Fluid Type	Petroleum Oil
Color/Appearance	White Sticky Grease
Dropping Point (ASTM D-2265)	390°F (199°C)
Specific Gravity	0.95
Density (lb/gal)	8.1
Flash Point (ASTM D-92)	>430°F (221°C)
Additives	Boundary Lubricants, Polymers, R&O
Cone Penetration (ASTM D-217)	265 – 295
Copper Strip Corrosion (ASTM D-4048)	1B
Timken EP Test (ASTM D-2509)	65 lbs., Typical
Base Oil Viscosity	ISO 150-220, Typical
Oil Separation (ASTM D-6184) (Fed. Std. 791 M 321.2)	5% Max.
Volatile Matter	Less than 2.0%
